**Description of course objectives:** The Advanced Dive Theory Distinctive Specialty is a non-diving, knowledge development program for divers or non-divers interested in expanding their understanding of dive theory. The course is designed to run in conjunction with the PADI Advanced Open Water course, though the Advanced open water dives are not required for this certification. In this course, students learn dive theory without having to qualify for or enter the PADI Divemaster program. The course covers dive physics, diving and human physiology, dive equipment, decompression theory, use of the PADI RDPs, and the ocean environment. For this reason, this course is ideal for those interested in technical diving and dive leadership.

**Pre-requisite(s):** PADI Open Water Diver certification (UWM Skin & Scuba, SPT&REC 126, plus open water dives) or equivalent.

**Required and Recommended Readings:** *PADI Encyclopedia of Recreational Diving manual* and *PADI Diving Knowledge Workbook*. Both are covered by the special course fee and are provided on the first day of class.

**Required and Recommended Equipment/Material(s):**

PADI requires the following equipment for all Advanced divers: mask, fins, snorkel, appropriate exposure protection, dive knife/tool, scuba tank, buoyancy control device with low-pressure inflator, weight system, regulator, alternate air source, submersible pressure gauge, depth gauge, timing device and/or dive computer, compass and Recreational Dive Planner. For the Night Dive, student divers must each have an underwater light and whistle. In addition, all students must have an underwater slate and writing instrument on each dive.

\*Important: PADI instructors have the right to deny any student diver the right to participate in an Adventure Dive if that student does not have proper scuba equipment.

Mask, fins, snorkel, and boots are available for rental from Aquatic Adventures if the student does not own them. Life support equipment is provided free of charge for one weekend. See policies below for care, return, and additional rental policies.

**Entrance to Klotsche/Pavilion (if applicable):** Students must have their student ID card for entrance.

**Special out-of-class assignments:** Students are required to read the PADI Encyclopedia of Recreational Diving and to complete the PADI Diving Knowledge Workbook.

**Tips for successful participation in class:** Students are required to attend classroom discussions of all reading materials and complete the PADI Diving Knowledge Workbook. It is necessary for students to complete all of these activities to be successful in passing the course.

**Grading Policies:** Grading is based on the following:

- Attendance at each of 5 classroom discussion = 10 points per classroom (50% of grade)
- Successful completion of Diving Knowledge Workbook = 50 points (50% of grade)

**Grading Scale:**

A	95.00 – 100.00
A-	94.99 – 93.00
B+	92.99 – 90.00
B	89.99 – 87.00

## Schedule:

Schedules for all UWM courses taught through Aquatic Adventures can be found at [https://www.diveaai.com/uwm\\_schedule.htm](https://www.diveaai.com/uwm_schedule.htm). Schedules may change due to time constraints, weather, or availability of dive sites and facilities. All changes will be posted on this web page.

## Assignment Policies:

**MISSED CLASS POLICY:** Because dive industry standards prohibit students from attempting complex skills without having first mastered the more elementary skills on which they are based, students may not be allowed to rejoin their class if they miss a classroom, confined water, or open water dive. A \$25 per hour private instruction fee is charged to make up missed classes if the training cannot be completed with another class. If the instructor or student cannot coordinate their scheduled to make up missed classes, the student will be asked to withdraw from the course.

**UWM RENTAL POLICY:** Students will be issued life support equipment for confined water dives. There is no charge for using this equipment, provided the student completes all dives during the normal course. Standard rental fees will apply to any additional days needed to complete confined water dives. All rented equipment may be used only by the student it is issued to and only for purposes of scuba training in this course. Use for any other purpose is strictly prohibited. Any student found in violation of this policy will be expelled from class and all course fees will be forfeited.

During the time of rental, students are responsible for the proper care of the rented gear as outlined in the *PADI Open Water Diver* manual. Students will be charged for any damage to equipment that is the result of negligence, including exposure to heat or cold. Students will also be charged for the return of equipment that has not been properly rinsed following open water training.

All rental equipment is due back to Aquatic Adventures, Inc. by 4:00 p.m. on the Sunday following training. Students who pick up equipment and then fail to show up for training must return their gear by 4:00 p.m. on the next business day. Any student who fails to return gear at the appropriate time will be charged a \$65 per day late fee. No certifications or university grades will be issued to students who fail to return their gear or have outstanding balances with Aquatic Adventures, Inc. that are the result of late returns or damage due to negligence. Equipment that is not returned within 3 business days of the return date will be considered stolen and will be reported to the appropriate authorities.

**CERTIFICATION:** The PADI specialty certification fee is included in the course fee. This fee is non-refundable.

**UWM POLICIES AND FEES:** All University of Wisconsin – Milwaukee students are required to familiarize themselves with the schedules, policies, and fees associated with scuba training by reading through the material provided at <http://uwm.diveaai.com>. Aquatic Adventures will not be responsible for any inconveniences or issues arising from students claiming to be unfamiliar with the material provided for their benefit on this website.

**Attendance requirements:** Any student who does not participate in classes cannot expect to satisfactorily complete course objectives and therefore should consider dropping the course.

**Guidelines for wireless and electronic devices in the classroom:** The guidelines are on the College of Health Sciences website:

<http://uwm.edu/healthsciences/students/guidelines-for-electronic-wireless-devices-in-the-classroom/>

**Definition of a credit hour:** This is a 1 credit course. Students are expected to invest approximately 6 + hours per week in class activities. This includes class participation, lectures and outside assignments.

## **University Policies**

1. *Students with disabilities.* If you will need accommodations to meet any of the requirements of this course please contact me as soon as possible. Verification of disability, class standards, the policy on the use of alternate materials and test accommodations can be found at the following:
