Description of course objectives: Students will learn Enriched Air Nitrox (EANx) dive theory and techniques. EANx is quickly becoming the breathing gas of choice for recreational divers who want to increase allowable bottom time, shorten surface intervals, and increase the number of repetitive dives they are permitted. Students are asked to view the PADI *Enriched Air Diver* video, attend classroom sessions on enriched air diving theory and techniques, pass the EANx Specialty Exam, and perform simulated EANx dives in the pool.

Pre-requisite(s): PADI Open Water Diver certification (UWM Skin & Scuba, SPT&REC 126, plus open water dives) or equivalent.

Required and Recommended Readings: *PADI Enriched Air Diving manual*. The cost of this manual is included in the special course fee, and a copy of the manual will be supplied to you at your first class meeting.

Source of each reading, if not a textbook to be purchased at the Bookstore: *PADI Enriched Air Diving manual*.

Required and Recommended Equipment/Material(s): Mask, fins, snorkel, and boots recommended.

Tips for successful participation in class: Participation in class is required to successfully complete this course.

Grading Policies:

Grading is based on the following:

- Attendance and participation in 2 lectures on Enriched Air Diving and completion of Enriched Air Knowledge Review = 1/4 of grade
- Attendance and participation in 1 Enriched Air Dive Planning Lab = 1/4 of grade
- PADI Enriched Air Examination = 1/4
- Successful completion of 1 confined water dive = 1/4 of grade

Grading Scale:

A	95.00 – 100.00

D-	70.00
F	Less than 70.00

Schedule:

Schedules for all UWM courses taught through Aquatic Adventures can be found at <https://diveaai.com/special-programs/uw-milwaukee/uw-milwaukee-schedule/>.

Schedules may change due to time constraints, weather, or availability of dive sites and facilities. All changes will be posted on this web page.

Assignment Policies:

MISSED CLASS POLICY: Because dive industry standards prohibit students from attempting complex skills without having first mastered the more elementary skills on which they are based, students may not be allowed to rejoin their class if they miss a classroom, confined water, or open water dive. A \$25 per hour private instruction fee is charged to make up missed classes if the training cannot be completed with another class. If the instructor or student cannot coordinate their scheduled to make up missed classes, the student will be asked to withdraw from the course.

UWM RENTAL POLICY: Students will be issued life support equipment for confined water dives. There is no charge for using this equipment. All rented equipment may be used only by the student it is issued to and only for purposes of scuba training in this course. Use for any other purpose is strictly prohibited. Any student found in violation of this policy will be expelled from class and all course fees will be forfeited.

During the time of rental, students are responsible for the proper care of the rented gear as outlined in the *PADI Open Water Diver* manual. Students will be charged for any damage to equipment that is

the result of negligence, including exposure to heat or cold. Students will also be charged for the return of equipment that has not been properly rinsed following open water training.

All rental equipment is due back to Aquatic Adventures, Inc. by 4:00 p.m. on the Sunday following open water training. Students who pick up equipment and then fail to show up for an open water training dive must return their gear by 4:00 p.m. on the next business day. Any student who fails to return gear at the appropriate time will be charged a \$75 per day late fee. No certifications or university grades will be issued to students who fail to return their gear or have outstanding balances with Aquatic Adventures, Inc. that are the result of late returns or damage due to negligence. Equipment that is not returned within 3 business days of the return date will be considered stolen and will be reported to the appropriate authorities.

MEDICAL CONDITIONS AND PRESCRIPTION DRUGS: Students with medical conditions should consult the RSTC Medical Statement on the Aquatic Adventures website, <https://diveaai.com/location-hours/forms/>. Students answering “YES” to any question on the form will be required to get a doctor’s approval to dive before being allowed to participate in any pool activities. If you have a medical condition or are currently using prescription drugs, please print out this form and bring it to your doctor or the Norris Health Center. Your doctor or a campus doctor can certify your fitness to participate in scuba diving. Bring the completed form with you to your first class. Please note, only students with medical conditions need to be evaluated by a doctor.

UWM POLICIES AND FEES: All University of Wisconsin – Milwaukee students are required to familiarize themselves with the schedules, policies, and fees associated with scuba training by reading through the material provided at <http://uwm.diveaai.com>. Aquatic Adventures will not be responsible for any inconveniences or issues arising from students claiming to be unfamiliar with the material provided for their benefit on this website.

Attendance requirements: Any student who does not participate in classes cannot expect to satisfactorily complete course objectives and therefore should consider dropping the course.

Guidelines for wireless and electronic devices in the classroom: The guidelines are on the College of Health Sciences website: <http://uwm.edu/healthsciences/students/guidelines-for-electronic-wireless-devices-in-the-classroom/>

Definition of a credit hour: This is a 1 credit course. Students are expected to invest approximately 6 + hours per week in class activities. This includes class participation, lectures and outside assignments.

University Policies

1. *Students with disabilities.* If you will need accommodations to meet any of the requirements of this course please contact me as soon as possible. Verification of disability, class standards, the policy on the use of alternate materials and test accommodations can be found at the following:
